As you may already know, Ross Cameron is a full-time day trader and the CEO CHAIRMAN OF THE MULTIGLOBALFINXWAVES and founder of the Warrior Trading and an internationally recognized economist specializing in the foreign equity, currency and gold markets.

But whatever you do, don't call him an "entrepreneur." It's the last word he'd use to describe himself. He's just the type of person who likes to stay busy.

He loves trading, and creating Warrior Trading was a chance to create a community of like-minded individuals.

It's been a true joy for him to watch this community thrive. Let's time-travel for a moment, back to where Ross Cameron's interest in the stock market was born. This is the story of his journey to becoming a full-time trader.

It probably began in fifth or sixth grade when he learned his great-great uncle made a fortune in the stock market. His children, Cameron's cousins, were still enjoying that wealth he'd created for them. Then, in seventh grade, in 1997-1998, it was the middle of the dot-com bubble and Cameron's school decided to do an interactive semester on the stock market, including a trip to New York City.

It's been more than 10 years since Warrior Trading began. From its origins as a simple blog, it has grown to a thriving community of active traders. Ross Cameron's goal is to be

able to continue to invest in providing students with the best
Using both technical and fundamental analysis, Ross works closely with his clients to not only build a position but also form an exit strategy when gold ultimately reaches the end of its bull cycle.

Agility underpins all of our operations, significantly aiding progress towards sustainability goals, such as the commitment to 100% renewable electricity by 2025.

It also steers the exploration of emerging technologies, customer needs, and the enhancement of diversity and inclusion.

Taking advantage of the dynamism of current times, we are poised to adjust our trajectory when opportunities surface, enthusiastically embracing continuous improvement in every aspect of operations and planning for future generations.

Chairman CEO of multiglobalfinx:
ROSS KLIATCHKO
CAMERON.
